## BACK AT HEADQUARTERS.

### THE INTERSTATE COMMERCE COMMISSIONERS RETURN.

Protests and Petitions Awaiting Them on Their Arrival—Section Four is Pronounced Invalid by Senator Reagan. Various Other Washington News.

WASHINGTON, May 17.—Messrs. Cooley, Morrison and Bragg, of the interstate commission, are in town. Messrs. Walker and Schoonmaker not having arrived yet are expected here to-morrow, so there will not be a meeting of the full commission until Wednesday. Several complaints were received at headquarters in this morning's mail, all protesting against the suspension of the long and short haul clause of the law. The board of trade of Prescott, Ariz., in a communication, protests against a discrimination now in force against freight from St. Louis to Prescott and interior towns of the territory, and in favor of San Francisco. In support of their complaints, the board instances the fact that on a certain class of goods \$700 per car load is charged from St. Louis to Prescott, while the same class of goods are carried from St. Louis to San Francisco for \$125 to \$250 per car load. The distance from St. Louis to San Francisco is 2,600 miles, and from St. Louis to Prescott 1,700 miles.

A communication from United States Consul Twitchell at Kingston, Canada, to the secretary of state commenting on the evil effects of the interstate commerce law on trade and commerce between the United States and Canada was also received at commission headquarters to-day. Writing under date of May 9, Consul Twitchell says Canada's high protective tariff, in which there is no prospect of a reduction, made him apprehensive from the first of the effect of the increased railroad rates on imports from the United States to that section of Canada. Since the 4th of April rates as shown by freight bills have been increased from 25 to 100 per cent, with no change on Canadian roads. Coal dealers are preparing to bring coal from Nova Scotia for all purposes where Nova Scotia coal can be used. In hardware and tinware orders have been changed from American to Canadian houses on account of increased freight charges. In groceries there is the same complaint, and products of countries outside of the United States the Canadians expect to get by way of British Columbia and Halifax. The unpleasant feature noticeable, he says, in connection with the effects of the new law on freight charges, has been a generally expressed desire to find how and where merchants can make purchases without coming into contact with American railroads.

Senator Reagan replying to a letter from Commissioner Morrison inviting his attention to the proper interpretation of Section 4 of the interstate law, says that that section is iron-clad, and that the commission is not justified in suspending it. He concludes by saying: "I have tried to show, first, that the commission has no power to suspend a law of congress; and second, if they had as a matter of discretion the power to do so, that it would be a great wrong and injury to the public, and to a large extent would defeat the great and beneficent purpose of congress to protect the people from wrong and oppression, and to subject these corporations to the control and supervision of law."

**English Confederate Bondholders.**  
WASHINGTON, May 17.—Information has been received here that the opinion prevails among the English Confederate bondholders that the United States will assume the obligation of paying the bonds. The counsel of the bondholders committee is of the opinion that efforts now under way will result in the committee obtaining authority from the next session of the United States congress to raise the whole question by a suit in the court of claims. This opinion does not prevail in Washington.

**Presidential Appointments.**  
WASHINGTON, May 17.—The president today appointed the following named postmasters: Ambrose Beatty, New Britain, Conn.; B. F. Ochner, Kimball, Dak.; Lena Gidley, Malvern, Iowa; M. T. Streeter, Grand Lodge, Mich.; John Meehan, St. Mary's, Kan.; Andrew Z. Nuzum, Grafton, W. Va.; L. A. Martin, Chippewa Falls, Wis.; Edward Haler, Prairie du Chien, Wis.; J. P. McGill, Beaver Dam, Wis.

**Kate Chase Getting Rich.**  
WASHINGTON, May 17.—Mrs. Kate Chase, who is living quietly at Edgewood, is having many marks of attention shown her by Justice Chase old friends. Her financial fortunes are reviving with the boom in suburban real estate. She has recently been offered \$100,000 by a syndicate for the Edgewood property.

**A Japanese Naval Cadet.**  
WASHINGTON, May 17.—Secretary Whitney has authorized the admission to the Naval academy as a cadet, of H. Nire, a Japanese, student of a noble family. The law authorizes the education at the Naval academy of a student designated by the Japanese government.

**Civil Service Commissioner Edgerton Ill.**  
WASHINGTON, May 17.—The return of Civil Service Commissioner Edgerton, who has been absent from his post for over a month has been indefinitely postponed, owing to the weakened condition of his eyes, which are under the treatment of an Indianapolis oculist.

**Paper House Fire.**  
DENVER, Col., May 17.—Kearson & Peters, wholesale paper house, was burned a few minutes before midnight. The loss cannot yet be determined.

## MUST SERVE HIS TERM.

The Catholic Knights Have No Mercy on This Heekman.

CHICAGO, May 17.—At the biennial convention of Catholic Knights of America, which concluded its labors in this city on Saturday, a vigorous effort was made to obtain the consent of the order to an application for the pardon of ex-Treasurer Heckman, of Grafton, W. Va., who in 1883 defrauded the organization out of some \$23,000.

Heckman fled to Mexico, but was captured, brought back, tried and convicted, and in 1885 sentenced to five years' imprisonment. It was represented to the convention that if it manifested its desire for clemency the governor of West Virginia would grant a pardon, but after a bitter discussion the body not only sat down upon the proposition, but voted \$600 to be distributed among the three members who were instrumental in bringing about the prosecution and conviction. Heckman has influential friends who are greatly chagrined at the outcome of their efforts.

**Florida Senatorial Situation.**  
ST. LOUIS, May 17.—A dispatch from Tallahassee, Fla., says that since the withdrawal of Mr. Pasco from the senatorial race there has been considerable talk of a compromise candidate, and that the name most prominently mentioned for the position is that of Stephen R. Mallory, son of S. B. Mallory, who was United States senator from 1851 to 1861, and secretary of the Confederate navy during the rebellion. He is said to be a representative of the new south school, an able lawyer, a man of fine ability, the choice of the young Democracy of the state, and possessing the confidence of the entire party.

**Street Car Drivers Arrested.**  
INDIANAPOLIS, Ind., May 17.—Some time ago the city council passed a resolution calling upon the police to enforce the ordinance requiring street car drivers to call the name of the streets at the crossings, and notices were posted at all the car stables that the ordinance would be enforced, beginning today. The drivers met and determined to ignore the order, claiming that the company furnished no conductors, and that they had enough to do without watching for the particular crossings. As a result eight drivers were arrested and will appear before the mayor.

**Rogue Catchers in Council.**  
MOLINE, Ill., May 17.—A convention of officers and detectives of the United States opened here yesterday evening, and will continue in session for two days. A large number of delegates have arrived, several Canadian cities being represented. The object of the convention is the framing of laws, rules and regulations for the government of legitimate detectives and officers, whereby they may act in union with each other and suppress disreputable and blackmailing detectives.

**A Clash Between States.**  
DES MOINES, Iowa, May 17.—The attorney general has officially advised sheriffs and other state officers, that when engaged in enforcing the prohibitory law they have the right of way, and are to pay no attention to the interference of Federal authorities. The case which occasioned the opinion was one in Atlantic, where a sheriff who attempted to confiscate the product of a brewery was ordered to stop by a revenue collector, who claimed prior right to the beer on the ground that it had not paid the government tax.

**Sensational Death.**  
FORT WAYNE, Ind., May 17.—This morning Mrs. Jacob Brewer, wife of one of the wealthiest farmers of this county, after preparing breakfast went to the room of her husband to call him. Receiving no answer to her summons, she pushed the door open with a great effort, when the dead body of Brewer, which had been leaning against it, partially supported by a chair, fell upon the floor. He had died of heart disease while dressing.

**Murderous Redskins.**  
OTTAWA, Ont., May 17.—A dispatch from McLeod, N. W. T., says that several of the mounted police were killed on Friday night by a marauding band of Blackfoot Indians near Medicine Hat. A squad of 300 police pursued the Indians and after a desperate fight captured forty of the band. They will be severely dealt with.

**A Skeleton and Greenbacks Found.**  
ST. PAUL, Minn., May 17.—The skeleton of a man was found Friday on the bank of the river near Caledonia. In some old clothes, in a hat near the skeleton \$5,000 in greenbacks and coin was found. It is thought the skeleton may be that of one of the robbers who infested this region some time ago.

**Beat His Son to Death.**  
RED BANK, N. J., May 17.—A terrible murder was committed at Pine Brook, a colored hamlet at Eatontown last night. Robert Cromwell, a prominent member of the Methodist Episcopal church, beat his young son to death. The facts of the case are not known as yet. Cromwell has fled.

**Generous Donation to Wabash College.**  
WABASH, Ind., May 17.—Mrs. S. S. Sabin, a wealthy LaPorte lady, has just made a gift of \$5,000 to Wabash college, at Crawfordsville, to endow an alcove of books in the college library for her son, Chauncey. This makes an aggregate of \$65,000 that the Sabin family has given to this college.

**Dying of Hydrophobia.**  
MADISON, Ind., May 17.—A Willie Force, aged eleven, is dying of hydrophobia at Wise's Landing. The horrible mysterious lady, who has been at the county asylum here for the past three months, proves to be a sister of Mrs. Caleb Ryle, of East Bend, Kentucky.

**Locomotive Firemen's Meeting.**  
NEW YORK, May 17.—A largely attended meeting of locomotive firemen was held yesterday evening under the auspices of Lodge No. 149, Brotherhood of Locomotive firemen. Addresses were delivered by Mayor Hewitt, Charles A. Dana and Chauncey M. Depew.

**Remains of the Dead Vicar General.**  
NEW YORK, May 17.—The steamer Arizona arrived this morning. She had on board the remains of Vicar General Quinn, who died while on a visit abroad. The body was in charge of Rev. Father O'Farrell, of St. Teresa church, this city.

## A STRIKE DECLARED OFF.

### CINCINNATI MACHINE HANDS GO BACK TO WORK AT TEN HOURS.

The Outside Carpenters Failed to Come to Their Support—Master Builders Still Continue Their Lockout at Chicago—A Strike Among Sailors—Labor.

CINCINNATI, May 17.—The strike of the planing-mill hands has been demoralized by the action of the outside carpenters at their meeting Saturday night in refusing to go out in their support, and many of them returned to work to-day at the old time and wages. It is considered a victory for the planing-mill bosses, and the strikers are chagrined at their defeat. Morrison, Stewart, Griffith, Loughhead, and, in fact, all the planing-mill proprietors, had any number of applications for work from their old men. Some were taken back and some who were the most active in the strike were refused work at several places.

It is said that the bosses have a list of those who are to be black-listed. The bosses state that the men go back to work without any conditions, and that they will hire whom they please. The machine hands are loud in their expressions of indignation against the outside men, who, after getting their demands, nine hours and ten hours pay, several weeks ago, now fail to go out in their support as promised. The meeting Saturday night is said to have been much livelier than reported in the morning papers, and the leaders of the machine hands were yelled down when they attempted to speak. Many of the latter were so disgusted that they tore up their union cards. There has been considerable complaint about the distribution of relief, or rather the amount received.

The books, however, of the union are open at all times and the officers freely state that every one has received his share. Of course, with the large number out of work, the relief could only average \$3 to \$5 for each man. The amount received from the east was about \$2,100. More had been promised by the international union, and Secretary F. J. McGuire had surely promised to be here himself June 2. He may not come since the strike has been declared off. There is some talk of the boss carpenters going back to ten hours since the backbone of the strike is broken. The men who are not at work will hold meetings daily at Workmen's hall.

**The Chicago Lockout.**  
CHICAGO, May 17.—The master builders still continue the lockout and claim a practical victory already. All men belonging to the exchange, or in sympathy with it, have shut down all work. It is hinted that within a few days the master masons will endeavor to secure members of the International Bricklayers' union, and will promise them employment in preference to the striking local organization. In cases where a stoppage of work would entail loss on a property owner, permission is given to the contractor to finish the work. Although not yet officially reported to the secretary of the exchange, it is understood that everyone of the various lines of work and material connected with the exchange will send a committee of conference to the meeting Wednesday morning.

**Brewers' Troubles.**  
BOSTON, May 17.—The employees of the local breweries, who struck Saturday, voted to abide by the decision of a conference of strikers, as to whether the men in all the city breweries should strike in order to aid the men already out. If this is decided upon, and has not the desired effect, measures will be taken to extend the strike to all the breweries in the country. The brewers seem to anticipate a general strike, and are arranging for new men.

**Railroad Crossing Fight.**  
ST. JOSEPH, Mo., May 17.—A railroad crossing fight is in progress here. At 4 o'clock yesterday morning employees of the St. Joseph Terminal company tried to lay a track across the Kansas City, St. Joe & Council Bluffs railroad, but were prevented by 500 employees of the latter road. Eight engines of the Council Bluffs road now blockade the tracks, and both sides are awaiting further developments.

**Fire in a Hotel.**  
BOISEVAIN, Man., May 17.—The Ryan house caught fire early yesterday morning, and the flames spread so rapidly under a strong wind that the guests barely escaped with their lives, jumping from the windows in their night clothes. Duncan McBean, a grain dealer, was burned to death. He had received a large sum of money Saturday, and foul play is suspected. The guests lost all their personal effects.

**Probably in Canada.**  
EL PASO, Ill., May 17.—Jacob Keller, treasurer of Green township, Woodford county, has "skipped" to parts unknown. He was short \$1,800 when he came to turn the funds over to his successor in office. Keller's brother-in-law and bondsmen have made good the cash and obtained of Keller's wife a claim on her portion of their father's estate, which is very large.

**Railroad Officials Differ.**  
OMAHA, Neb., May 17.—President Adams Saturday accepted the resignation of S. R. Callaway as second vice president and general manager of the Union Pacific. The resignation is said to have been caused by a difference of opinion between Messrs. Callaway and Adams. The appointment of T. J. Potter to the position of first vice president followed.

**Coroner Denounced.**  
DENVER, Col., May 17.—Resolutions denouncing the coroner act and sympathizing with Gladstone and Parnell were adopted last night at a mass meeting, at which over three thousand people were present. Governor Adams presided and spoke. Speeches were made also by Senator Teller, ex-Congressman Belford, the Rev. Myron Reed, Hon. T. M. Patterson and others.

**Northwestern Crops All Right.**  
LINCOLN, Neb., May 17.—The general rain that fell throughout eastern and central Nebraska Friday has prevented any serious damage to crops from drought. From points in central and southern Nebraska come very flattering reports.

## Death of Elijah C. Phister.

MAYSVILLE, Ky., May 17.—This city suffers severe loss by the death of Hon. Elijah C. Phister, a prominent lawyer and jurist of this state. Judge Phister sunk into a quiet, easy slumber at 10:30 Sunday morning. He was at an early age a student at the college in this city with U. S. Grant, and was circuit judge of this district for a term of six years. He represented Mason county in the legislature, where he made an enviable mark. It was during those years that the memorable Cincinnati Southern railroad legislation was enacted. He was elected to congress in 1878, and served two terms, was a member of the judiciary committee, a prominent Odd Fellow and past grand master since 1854. The funeral takes place to-morrow at 3 o'clock.

**Original Manuscript of Home, Sweet Home.**  
ATHENS, Ga., May 17.—What is said to be the original manuscript of "Home, Sweet Home" was buried in the grave of Miss Mary Hadden yesterday. She was John Howard Payne's sweetheart, but rejected his offer of marriage on account of her father's objection. Payne corresponded regularly with her, sending her among other things the original manuscript of his famous poem, interlined with protestations of love. Since her separation from Payne, Miss Hadden had never appeared in society, and for the past fifteen years had shut herself up in the old family mansion, seeing no one but the few members of the little church to which she belonged.

**Strike Among the Sailors.**  
CHICAGO, May 17.—A strike and tie up among the lake sailors is expected very soon. The Sailors' union, Knights of Labor, has issued a circular to members, soliciting their support, not only in letting alone cargoes loaded by non-union men and avoiding the loading or unloading of vessels sailed by non-unionists, but by using all moral sanction in having those sailors who do not belong to the union join it. A motion to reduce the scale of \$2 to \$1.75 for the return trip from Canadian ports was voted down in the assembly yesterday. Meanwhile the Vessel Owners' association is shipping non-union men at \$1.50 per day.

**Australian Mails Delayed.**  
SAN FRANCISCO, May 17.—The secretary of the New Zealand and postoffice department has written to Postmaster General Viles, asking that Australian mails from London to San Francisco be made into two instalments instead of three, as at present, so as to reduce the chances of delay in sailing of steamers from San Francisco. Under the present system, if any one of the three instalments is delayed in the transit the San Francisco steamer is held back for it. It is stated that two serious delays have thus been caused within a few months.

**Death Ends a Saloon Quarrel.**  
OMAHA, Neb., May 17.—Dennis Quinlan, a painter, twenty years old, was shot in front of a saloon on Eighteenth and Vinton streets, at 10 o'clock last night and instantly killed. Quinlan had quarreled with three unknown Germans in a beer hall. They followed him and on coming up with one of them fired, the bullet entering Quinlan's brain. The murderer and his companions have not yet been arrested. Quinlan was formerly from Kansas City.

**Fire Still Raging in Michigan.**  
CHEROKEE, Mich., May 17.—Fire is raging fiercely in the woods in several parts of this county. Rain fell for a few hours this morning, but not sufficiently to quench the flames. Near Burt Lake the situation is critical. The fire is licking up everything in its path. A great deal of standing timber, houses, barns and fences have been destroyed. A heavy smoke still hangs over this city and section.

**Four Murder Trials.**  
LEXINGTON, Ky., May 17.—Circuit court began here this morning. The docket is an averaged sized one, and there are four murder trials set for the coming term, as follows: Eugene Fogle, for killing Lynch V. O'Connor; James Stivers, for killing John Neal; Bud Hort, for killing John Waller; Mrs. Lucretia Munday, for poisoning her husband in order to obtain the heavy insurance on his life.

**Killed By Lightning.**  
ST. LOUIS, May 17.—During a violent storm that passed over the city yesterday afternoon, Bernard Horn, who was walking in the western suburbs, and Charles Reese, who was at work on a brick yard at the corner of Park and Wing avenues, were struck by lightning and killed. Reinhold Tascher was paralyzed, and two or three other persons were severely injured.

**Prosperous Merchant Suicides.**  
PHILADELPHIA, May 17.—Alexander Whilldin, Jr., a prominent yarn merchant, representing large southern industries in this city, committed suicide by shooting yesterday in Dobbs Woods, near Camden. His business affairs are in a prosperous condition and the deed is attributed to a temporary fit of insanity, resulting from general debility, from which he was suffering.

**CLEVELAND, O., May 17.—Davis & Nelshe's livery stable, on Loraine street, was burned early yesterday morning and Charles Baker, an employee who slept in the building, was so badly burned that he died last night. Baker had considerable money about him Saturday and the police think he was robbed and the stable burned to hide the crime.**

**Fatal Run.**  
LACROSSE, Wis., May 17.—Four young people attending a Garmann picnic went out in a rowboat yesterday afternoon opposite the city. The men, half drunk, sought to frighten Miss Katie Litke, the only lady in the boat, by rocking. The boat capsized, and Miss Litke and John Hayer were drowned. The other two were saved.

**The Fatal Floater Hiss.**  
COBURN, O., May 17.—While D. Mizer and family were visiting Frank Phillabaum at Anondale yesterday, his eight-year-old son found a Floater rifle under the bed. He took it out and pointed it at young Phillabaum, not knowing it was loaded. The ball took effect in the forehead and ranged backward. The youth cannot recover.

**At St. Louis, during a violent thunder storm, Bernard Fione and Charles Reese were killed by lightning. Reinhold Tascher was paralyzed and several other persons were severely injured.**

TUESDAY EVENING, MAY 17, 1887.

The new gas company slipped up on its old rival in the Court of Claims yesterday, and scored a victory when it secured a contract from the Board of Magistrates to furnish gas at the jail, court house and clerks offices for ten years.

To the senior editor of the Republican: We advise you to "keep your hat upon your head, and your shirt upon your back." The new gas company seems to be still in the ring. Witness the little "jack" it turned in the Court of Claims yesterday, and the "pot" which it now claims as its own in the shape of a ten-years' contract with the county for lighting the public buildings.

The Louisville Commercial seems very anxious to have a Labor ticket in the field at the coming State election. A Labor ticket might add a little interest to the fight, but that's about all it would amount to. With few exceptions Democrats will remain Democrats and Republicans will still vote for their nominees. The Democratic ticket is an exceptionally strong one, and will command the full support of the party.

## Annual Conclave.

The Knights Templar of Kentucky will meet in annual conclave at Danville tomorrow.

## A Printer's Error.

Sweet are the uses of adversity, the printer's copy said, but he set it up, sweet are the uses of advertising. Sweet, indeed, to those who in sickness and suffering have seen the advertisement of some sovereign remedy, which upon that trial has brought them from death's door. "The best thing I ever saw in my paper was the advertisement of Dr. Pierce's 'Golden Medical Discovery'." is again and again the testimony of those who have been healed by it of lung disease, bronchial affections, tumors, ulcers, liver complaints and the ills to which flesh is heir.

## A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at the drug stores of J. O. Pecor & Co., and S. P. Campbell, & Co., of Aberdeen Ohio.

It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. O. Pecor & Co.

## Household Hints.

In washing potatoes preparatory to cooking, it is the custom of experienced housekeepers to bathe the tubers in tepid water. This will be found a much more expeditious process than the common practice of brushing upon them or moistening with the lips and polishing with a coarse cloth. When it is expedient to fill a kerosene lamp while burning, it is generally advisable to delegate the task to the least good looking female member of the family. Should there be an explosion, eventuating in the permanent disfigurement of her countenance, the lamp will be credited with the full measure of her lack of beauty, and consequently be, as it were, a blessing in disguise. A merciful man is merciful to his beast. Hence it betokens a most commendable consideration for the lower strata of the animal kingdom to embrace every opportunity to ameliorate the condition of these dumb creatures. A most estimable lady, actuated by this noble sentiment, and whose worthy example should be followed by all householders having a real love for God's lesser creations, regularly leaves her dishes unwashed after a meal in order that the waterbugs may find something wherewith to satisfy the cravings of their appetite. There is such a thing as taking too much precaution, even in housekeeping. It is good judgment, perhaps, to lock the piano when leaving the domestic alone in the house, for obvious reasons; but in most families it is not considered necessary to lock up the washbasin in order to prevent the young ladies of the family from gaining access thereto. It should be the constant endeavor of the careful housekeeper to remove from sight whatever is unpleasant to look at. There is, however, danger of going too far in this as in other matters of home regulation. For example, when you are expecting guests not possessed of that physical gift which is said to be but skin deep, it is not good policy to turn the faces of the mirrors to the wall, as your kind intention would be liable to misinterpretation.—Boston Transcript.

## Experiment With Earth Worms.

Mr. Graber has lately made some curious observations upon the effect of light upon cycless animals, a report of which appears in the proceedings of the Vienna academy. He put a number of earth worms into a box, which was provided with an aperture on one side, through which light was allowed to ingress. The result of many experiments showed that the worms sought the darkest part of their temporary prison and that at least two-fifths of their number shunned the light. Experimenting with rays of different colors by means of stained glass, he found that the worms exhibited a marked preference for red light.—Boston Transcript.

## The Villages of the West.

I had a talk recently with a Massachusetts man, who has been west on a prospecting tour. He said: "I have been astounded in going through the western country to note the remarkable stage of improvements which they have attained. If you get off the cars at any town of 3,000 or 5,000 inhabitants or larger, you will find yourself in the midst of a civilization that is equal to any of the great cities of the east. You find electric lights, perfect telephone and telegraph district messenger service, modern improvements in the way of sanitary drainage, street cars, fine public buildings and perfect fire service. Looking the place over you will find buildings of modern construction, finely equipped, possibly with elevators and with all the modern improvements. Such a town is as far ahead of a New England place of the same size as anything you can imagine. It took me some time to realize the conditions and to figure out the causes from which they resulted. The real fact seems to be that these western people are getting the benefits of all the improvements and inventions and progress of the older civilization. The cars on the western railroads are more luxurious than those of the older lines in the east. Railroads are built on a scale of improvement much finer. It would do the people of the east great good if they could be transplanted out into the western country for a little while to see the differences I have noted."—New York Tribune.

### OBITUARY.

Bettie E. Clary, daughter of George W. and Mary E. Reeder, was born January 4, 1861. At the age of fourteen years she became a member of the Christian Church at Tollesboro, under the ministry of Elder William Morrison.

She was married to Amos O. Clary in November, 1879, and died May 11, 1887. Her remains were taken to the Christian Church, where funeral services were conducted by Elder Morrison, assisted by Rev. Cornes. The body was then conveyed to the beautiful hillside cemetery of Mt. Carmel and placed beside her sister's. Bettie loved her church and was a faithful and devoted christian. She was beautiful in form and feature. She had a warm heart and a sunny face, and was ever ready to speak pleasant words and do deeds of kindness. Her praises were on the lips of all who knew her; she was very patient in her severe afflictions, and seemed perfectly resigned to the will of God, and when the end came she called her husband, brothers and sisters to her bedside, kissed them and bade them good-by, and asked them to meet her in heaven. Her immortal spirit quit its tenement of clay with a well-grounded hope of ascending to happiness and glory and a conviction that angels never bore on snowy pinions a purer spirit to the world of eternal bliss. Tollesboro, Ky., May 16, 1887. J. D. R.

# Natural Gas.

The contract to sink a natural gas well here has been let by the company, and we're going to bore that hole if "the earth does freeze up in the next fifty years." The contract was awarded to R. W. Evans, who is sinking the well at Vanceburg. He is to furnish everything and bore 1,200 feet for \$2,500. If he goes deeper, he is to be paid \$1 50 a foot for all below 1,200 feet. If the company wishes to sink a second well he is to do the work at \$1.50 a foot. He has ordered the machinery from Oleon, N. Y., and was to leave there yesterday for this city. He will commence work as soon as possible.

Those of the stockholders who have not paid their calls are asked to do so at once. The money is needed. The well is going to be sunk and we're going to strike gas; at least, that's what Charley White says, and he generally knows what he is talking about.

# "Nip't in the Bud!"

Sad to say, many a good thing attains to nothing more than a fair beginning. On the other hand it is a matter for congratulation that the growth of some evil things may be also promptly frustrated. A large proportion of the cases of the most wide-spread and fatal of diseases—consumption have their inception in nasal catarrh. Dr. Sage's Catarrh Remedy is pleasant, soothing and effectual. Try it. ## GENERAL FOREIGN NEWS.

### A SUMMARY OF IMPORTANT HAPPENINGS ABROAD.

**Trying to Catch the Amusement Public.**  
Queen Victoria Made-City Elections in Paris—Strasbourg and Metz Not Strong Enough—William O'Brien Elected.

**Paris, May 17.**—The caterers for amusement here have lately hit upon some novel device to attract public attention. One enterprising impresario has opened what he calls an optical concert, in which a miniature reproduction of the real cafe concert singers who perform behind the scenes are effected upon a plate glass arrangement. The miniature figures are three and a half inches in height and there are fifty-six reproductions, only that number being able to see the performance simultaneously. The forms and faces of the singers are well produced, while the wrinkles are of course less visible than if the performers were before the audience in the flesh.

Another novel entertainment in the spectacle of a mesmerized woman in a cage with wild beasts. This thrilling performance has just taken place in a certain notorious concert hall off the boulevards. The cage containing two lions was placed on the stage. The wild beasts were kept in order by their tamer, while Torchy, the mesmerist, brought his subject, Miss Lucia, into their den.

**Queen Victoria Mad.**  
LONDON, May 17.—Queen Victoria is in high dudgeon at another member of her family. This time the offender is Prince Alexander, eldest son of the Duke and Duchess of Rothe. At a recent concert at Petricham, near Richmond, this son of the reigning family figured on the program with a song of his own composition entitled "The Speaker's Eye," introducing several "whistling passages," and according to the local papers, "equilibrated himself very creditably." Her majesty, however, is angry at the idea, first, that a prince should actually compose and sing in public a comic song, and second, that the song should have reference to the august presiding officer of the house of commons. Her opinion in the matter has been communicated to the prince, and the prospects are that the brilliant career as a writer of comic songs which appeared to be before him, has received a sudden and permanent check.

**Fortifications Contemplated.**  
BERLIN, May 17.—Prince Bismarck has given official statutory notice to the house and land owners concerned that the government contemplates an extension of the fortified area around Strasbourg, Metz and Posen. Herr Stumm, now German minister at Copenhagen, will replace Count von Solms-Sonnenwalde, as minister at Madrid. Baron von Den Bricken, at present German minister at Athens, will be transferred to Copenhagen.

**Paris City Elections.**  
PARIS, May 17.—The elections for members of the municipal council have been completed. The Revolutionists will now have ten seats in the council, instead of four, as in the last council, while the Moderates, who formerly had twenty-two seats, will have but fourteen in the new council.

**O'Brien Elected to Parliament.**  
DUBLIN, May 17.—Mr. William O'Brien, editor of United Ireland, who is now in Canada, has been elected without opposition to the seat in the house of commons for the northeast division of Cork, made vacant by the resignation of Edmund Leamy.

**A Heavy Boycott.**  
LOUGHREA, May 17.—The boycotting of Mr. Tene, the agent of the estate of Lord Clarendon, in County Galway, has commenced. Several tradesmen have refused to supply him with food.

**French Troops Mobilized.**  
BERLIN, May 17.—Gen. Boulanger's plan for an experimental mobilization of the French army next October is distrusted here. If France mobilizes, Germany will mobilize also.

**Off for the Don Cossacks.**  
ST. PETERSBURG, May 17.—The czar and czarina start this morning for Novo-Tcherkassk, the capital of the Don Cossack country.

**Novel Reading Boys in Trouble.**  
EAU CLAIRE, Wis., May 17.—James and William Murphy, aged respectively thirteen and fifteen years, have been lodged in jail here. They are accused of having detailed a Wisconsin Central passenger train about ten weeks ago between Eau Claire and Chippewa Falls. Several trains had barely escaped being wrecked several times in succession, when the company put armed guards at the switch, since which time no accidents have happened. The Murphy boys had been reading dime novels.

**One Thief Shoots Another.**  
CHICAGO, May 17.—George Jordan, alias Fairbanks, a colored man, was fatally shot by William Dunstan, another colored man, in the railroad yards behind the Dearborn station last night. Dunstan made his escape. There was a quarrel between the two men, the cause of which was the police think, the division of the proceeds of a jewelry robbery which the proprietors of a disreputable house charged them with. The value of the jewels was placed at \$1,500.

**Railroad Shops Shut Down.**  
LAKE VILLA, Ind., May 17.—The Lake Erie & Western Railway company, Saturday evening, shut up its repair shops in this city, discharging its men. Their reason assigned was that their was little for them to do, and the shop was taken to save expense. It is likely the shops will re-open soon.

**Victims of the Mine Disaster.**  
NANAIMO, B. C., May 17.—Since Saturday the bodies of seventeen more victims were brought up out of the Vancouver mine, and six white men and eleven Chinamen are yet to be found. The bodies were all badly burned. Work in the south shaft will be resumed at once.

**Died at 103.**  
BURLINGTON, Va., May 17.—Mrs. Catherine Rood, of Essex, died to-day aged 103 years and seven months. Mrs. Rood had been a member of the Methodist church more than seventy years.

**Mangled by a Train.**  
ELIZABETHTOWN, Pa., May 17.—Peter Rafferty, aged forty, was run over Sunday evening by the Pennsylvania fast line train east. He was intoxicated. His body was horribly mangled.
